

United Nations Association of Pomona Valley presents

## **Natural Consequences:**

*a Planet in Peril*

**Thursday, April 20, 7 PM**

**with Char Miller**

Char Miller is W.M. Keck Professor of Environmental Analysis & History at Pomona College. His teaching and research reflect his fascination with all things environmental. Classes on U.S. environmental history, water in the U.S. West, and public lands management, like those on urbanization and the interplay between the natural and built landscapes, have deeply informed his writing—and his cross-disciplinary and cross-campus commitments to Pomona’s Environmental Analysis and History programs as well as to the 5C Environmental Analysis major. In 2015, he was awarded the Pomona Alumni Office’s Distinguished Service Award and two years earlier he was named a Wig Distinguished Professor at Pomona College for teaching excellence.

**In person at Claremont UCC Church, 233 W. Harrison Ave.**

or on Zoom by contacting  
[una.pomonavalley@gmail.com](mailto:una.pomonavalley@gmail.com)

Copies of Professor Miller’s book titled **Natural Consequences: Intimate essays for a Planet in Peril** will be available to purchase.

The “Global Issues Programs” are free and open to the public
